This Publication Is The Product of A Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of a satisfactory Directory.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

HOW TO USE YOUR TORONTO CITY DIRECTORY

The new and improved Toronto City Directory is the most complete and comprehensive catalogue ever published of the inhabitants, business concerns and institutions of the city.

The revised form and new features exemplify the efforts of the Publishers to add to the utility and value of the Directory in daily use and to make it an even more worthy representative of an outstanding city.

The major sections in the City Directory are arranged in the following order for ready reference:

1. *INTRODUCTION AND MISCELLANEOUS*
2. *CLASSIFIED BUYERS' GUIDE*
3. *ALPHABETICAL SECTION*
4. *HOUSEHOLDERS' AND STREET GUIDE*

(Particular attention is called to the arrangement of sections as above.)

We believe that the following list of typical questions, many of which the Directory will be daily called upon to answer, will serve to indicate both the types of information available and the sections in which it may be readily located.

THE TORONTO HARBOUR COMMISSIONERS

The Port of Toronto, through continued expansion and planned development, has become one of the most modern harbours on the Great Lakes with a cargo tonnage placing it among the leaders of both Canadian lake and sea ports.

Under the direction and administration of The Toronto Harbour Commissioners, with the co-operation of the City Council and the Dominion Government, Toronto Harbour has experienced very marked improvements in navigation, commercial and industrial facilities. Two large waterfront industrial areas have been created almost entirely out of non-revenue producing marsh lands and lands previously covered by water.

Serving these two areas are concrete wharves and piers; twelve miles of modern dockage; 32 miles of terminal railway track owned or controlled by the Commissioners; perfect co-ordination of rail, water and highway transportation; wide streets and all modern conveniences and accommodation for industrial and commercial establishments.

The extent and beneficial importance of Toronto Harbour developments to the City and the impetus given the City's commerce by waterborne trade are intangibles difficult of measurement. A tangible result, however, is seen in the payment during 1957 of some $3,950,000 in taxes, made to the City by industry and manufacturers located on lands created by the Harbour development.

Following is a table of waterborne traffic cargo tonnage at Toronto Harbour, in short tons:

1943	3,612,215
1953	4,707,133
1954	4,784,937
1955	4,493,927
1956	5,486,912
1957	5,247,658

Generally, material improvement in the physical condition and commercial importance of Toronto Harbour date from the inception in 1911 of the present method of administration by The Toronto Harbour Commissioners.

In addition to industrial developments, the Commissioners, working to a planned programme, have reclaimed park and recreational areas, one of which is Sunnyside Beach near the western entrance to the City. Known as Toronto's lakeshore playground, Sunnyside extends from the Humber River eastward for a distance of one and three-quarter miles.

Also extending easterly from the Humber River to Leslie Street, a distance of approximately 7 miles, is the cross-town waterfront highway made possible by the waterfront development, and with, for the most part, a minimum pavement width of 50 feet.

The Toronto Island Airport and Seaplane Base, located south of the Western Channel entrance to Toronto Harbour, is operated by the Harbour Commissioners for and at the expense of the City. It is located approximately one and one-half miles from the Union Station.

The Toronto-Malton Airport, located to the north-west of the City of Toronto, is also administered by the Harbour Commissioners, the airport proper being leased to the Department of Transport. Air service between Toronto and principal Canadian and American cities is provided by regular scheduled flights.

TORONTO—INDUSTRIAL FACTS

Toronto is the home of 4,700 manufacturing plants, representing a diversity of manufacturing that covers the whole alphabet. In this city is located the largest concentration of British and United States branch plants to be found anywhere in Canada.

Some of the fields of production in which Toronto is outstanding are meat packing; electrical apparatus and supplies; rubber goods; machinery; pharmaceuticals; and printing and publishing.

INDUSTRIAL DEVELOPMENT

There are approximately 4,700 manufacturing establishments in Metropolitan Toronto. Toronto has twice as many branches of British and United States firms as the next ranking centre in Canada. The selling value of factory shipments in 1955 was $2,700,000,000. There are in the Toronto area 200,000 industrial employees, and the 1955 manufacturing payroll approximated $680,000,000.

Toronto is firmly established as Canada's leading industrial and distributing city. It is the immediate centre of the largest and wealthiest consuming population in Canada (one-third of the buying power of the entire Canadian market is concentrated within a radius of 100 miles), and it is the centre of country-wide business and wholesale trade. It is also a favorable base for world-wide export trade, which is one of the outstanding features in Canadian industrial development.

The volume and diversity of Toronto manufacturing provide under normal conditions plentiful and efficient labor, skilled and unskilled, male and female, in fact it is the provincial clearing house for labor.

Toronto has excellent transportation facilities with many sources of raw and semi-manufactured materials in close proximity. Rail, water, highway and air communications radiate from Toronto giving efficient low-cost distribution.

Splendid industrial sites are available in the harbor, in other zones within the city limits and in its industrial suburbs. It has electric power at cost and it is one of the financial centres of the North American Continent.

The Metropolitan Toronto Industrial Commission, Canada Permanent Building, 320 Bay Street, Toronto, is the official industrial commission for the City of Toronto and covers 40 adjacent municipalities, ranging in population from 1,000 people to the city of Toronto with 646,000 persons.

Many other statistics show how rapid and sizeable has been the city's business growth. Consider the large increase in the number of telephones—the pulses of city commerce in Toronto.

The number of telephones in service since 1950 is as follows:—

December 31st, 1950 - 432,200	December 31st, 1954 - 559,800
December 31st, 1951 - 450,000	December 31st, 1955 - 608,500
December 31st, 1952 - 480,600	December 31st, 1956 - 667,600
December 31st, 1953 - 551,600	December 31st, 1957 - 715,189

TORONTO—EDUCATIONAL FACTS AND SCHOOL STATISTICS

The City of Toronto has 21 libraries — a Public Reference Library, including a Business and Technical Section, an Exhibition Gallery and a Newspaper Reading Room, corner College and St. George Streets; Central Circulating Library, including the Music Library, 20 St. George Street; Boys and Girls House, 40 St. George Street; and 18 branch libraries. The John Ross Robertson Collection of historical Canadian paintings and prints and the Picture Loan Collection are on the third floor, 20 St. George Street. There are also numerous smaller libraries: in hospitals 6, settlements 1, schools 30, homes for the aged 11, and 6 in miscellaneous institutions. The use of books in 1957 in the City's own libraries was 4,634,509 volumes, including those circulated and those used in Reference. Books in all libraries total 916,090.

Toronto offers unusual educational, religious, recreational and home facilities to the working man; sane labour laws honestly and ably administered, all result in satisfied and satisfactory employees.
